

CYBERSECURITY is Everybody's Business

Solve the Security Puzzle for Your Small Business and Home

Scott N. Schober

CEO, Cybersecurity & Wireless Technology Expert & Author

Scott Schober is a top cybersecurity expert, presenter, wireless expert and author of *Hacked Again*. Scott has appeared on Bloomberg TV, Good Morning America, CNN, Fox Business Channel, NPR and more to weigh in on the largest retail, corporate, government and consumer security breaches in recent history. Scott continues to espouse the need for better cyber security practices through his appearances, speaking engagements, products and now his new book entitled **Cybersecurity Is Everybody's Business**.

If you haven't already, please check out **Hacked Again**, Scott's first book on how he was hacked and overcame it.

THANK YOU FOR TAKING THE TIME TO READ THIS NEW BOOK

If you have received an **ARC**, please respect the **embargo release date of October 1, 2019** before releasing your blog or review. In the meantime, feel free to publicize the new book and its pre-order page on Amazon via your media publication of social network(s) of choice. Contact @ScottBVS directly with any questions or media requests or send an email to scott@bvsystems.com. Download bio and book related images directly from www.scottsschober.com

There are 30 million small businesses currently operating in the United States. Some of them are single owner/operated while others collectively employ hundreds of millions. This book is for all of them and anyone who makes it their business to stay safe from phishing attacks, malware spying, ransomware, identity theft, major breaches and hackers who would compromise their security. We are all in this together which is why cybersecurity is everybody's business.
